

Bid Express FAQs:

[How can I be sure that Internet proposal submission is secure?](#)

The Bid Express service incorporates high encryption to prevent outside parties from viewing bid data. Prior to the bid opening, submitted bids are held in a digital lockbox that is inaccessible to the agency until the bid opening time. Vendors can only access their own bids and the Bid Express service never has access to any bids at any time. For questions contact support@bidexpress.com or phone line 888.352.BIDX (2439).
