Scott Loomis

Strategic Sourcing Manager, MCPPO in process
sloomis@mhec.net • 413-992-2511

The MHEC contract for **Exterior Maintenance, Equipment, Repair, Supplies and Service (G02)** includes suppliers who sell and service large machinery from companies such as **Stahl, John Deere, Caterpillar, Hitachi, Honeywell, 3M, Rubbermaid, and Paladin**, to name a few.

The suppliers on this contract all have long track records for success serving our members—not just by offering leading brands, but by providing expert consultation and support.

The contract is much more than backhoes and tractors. **The Durkin Company** is family owned and based in Billerica, Massachusetts. Along with a full-service machine repair department, they offer a wide array of janitorial and safety supplies, along with products that serve industrial, technological, and office staff. **Casey EMI**, based in Foxboro, MA, also offers a wide range of cleaning and healthcare supplies. Their

consultants have been on staff an average of 18+ years and are a wellspring of knowledge.

For those organizations situated on a campus, or with extensive grounds, golf carts are an ideal way to travel. We have several suppliers on contract who provide a range of options, but only one that specializes in them exclusively. **Edgewood Golf Carts** specializes in sales and rentals. Owner Mike and partner Joe are on-call to help.

As we strive to provide more options for all states across New England, **NITCO** has been a strong partner offering a range of options and a strong sales staff (370+) to support our members.

Taplin Yard, Pump and Power Equipment, Bare Ground Systems, Edgewood Golf Carts, and Cain's Mechanical have all been certified by the Massachusetts Supplier Diversity Office (SDO) as small businesses.

B14 Athletics: Gym, Parks, & Recreation

Luke Hoefler

Strategic Sourcing Manager, MCPPO in process
lhoefler@mhec.net • 413-992-2575

When it's time to take the game outside, the MHEC contract for **Athletics: Gym, Parks, & Recreation (B14)** provides members with everything needed to score big!

For pre-athletes, many schools have turned to **M.E. O'Brien & Sons** and **Premiere Park and Play** for their playground needs. Along with innovative playstructures, shelter systems, and obstacle courses, each supplier also offers options for splash pads and spray parks. M.E. O'Brien installs eye-catching outdoor musical instruments (see page 12) from **Freenotes Harmony Park** that provide an accessible, interactive way to play, promoting sensory and motor skill development.

Kompan Playgrounds provides an array of outdoor equipment centered on adult fitness and providing serious workouts.

BSN Sports offers uniform apparel for all sports, and **Scoreboard Enterprises** installs all sizes of digital scoreboards, both for indoor gyms and outdoor fields. They provide a wide array of looks and options, and they also provide repair services for existing systems.

For those looking for indoor fitness equipment, **Gronk Fitness** offers weights, treadmills, rowing machines, and strength machines. **Precor Inc.** also offers a range of trainers and stairclimbers, but they also carry the popular interactive bike or treadmill, **Peloton**. With a selection of video training programs and courses, these products are designed to keep people active and focused, whatever the weather or season.

1st Monday Poll – Continue or No?

Please Participate!

June 5th will mark an entire year of publishing our **1st Monday monthly member digest**. The goal when we started was to provide members with content that could help with making purchasing decisions. We are polling our members to see if we met that goal and should continue to publish—or reinvest the time and efforts somewhere else.

We want to find out if you:

- find **1st Monday** valuable?
- read **1st Monday** and how often?
- would like to continue receiving **1st Monday**?
- think there are areas that you think need improved ?

Please participate by clicking on the below link.

It will take you less than sixty seconds!

[1st Monday Poll](#)

time to
TEE-UP!

MHEC's annual
Golf Tournament
Friday, June 2

FREE TO MEMBERS!

MHEC's annual Golf Tournament is scheduled for Friday, June 2.

Played on the lush grounds of the Blackstone National Golf Club in Sutton, MA, this is a great opportunity for members and suppliers to network. For each team, we pair two suppliers and two MHEC members; they play the 18-hole course together in a friendly competition with other teams. A selection of holes are sponsored and will have greeters on hand to cheer you along. Breakfast and lunch are included. Positions are filling up; register soon!

[Click HERE to register.](#)

Fast Threat Response

Unfortunately, we're all aware of the mayhem, horror, and harm an active shooter can bring to a public space.

As crucial as preparation and training are, speed and accuracy in the response are the most important factors during an active shooter situation. On average, it takes 5 minutes between a gunshot being heard and anyone calling 911. In the instant that chaos erupts, even the most calm, collected, well-prepared person can be immobilized with fear.

On MHEC's **Technology Contract (F05)**, **VoDaVi Technologies** offers **AmberBox Gunshot Detection**, a solution for this very problem; instead of minutes, it takes seconds for authorities to be notified after a gunshot is heard.

Working in combination with Aruba networking and security solutions, AmberBox Gunshot Detection provides three essential features that can make all the difference. First, an automated response identifies the location of the shot immediately while notifying authorities within 3.6 seconds. Next,

all key security personnel are automatically linked into a conference call with local police where all parties can view real-time operational intelligence.

Finally, AmberBox Gunshot Detection integrates with any security system vendor to facilitate an immediate response with pre-programmed security features.

Avoid the chaos that only makes a bad situation worse. With AmberBox Gunshot Detection from **VoDaVi Technologies**, you can save precious minutes and respond with the precise information you'll need to contain the threat and mitigate the harm.

WE'RE SOCIAL

Follow **MHEC** on Facebook and LinkedIn for the latest news, videos and updates!

(On LinkedIn, you'll find us under our full name: "Massachusetts Higher Education Consortium")

shaping the outside world

As the ground thaws and hibernation ends, across New England our attention turns to improving and shaping our outside world. Whether it's planting hedges, or posting signage, we all seek to make our environment friendlier and more accessible—both for ourselves and our guests.

It doesn't matter if you are just looking for some fun outdoor furniture for your kindergarten, or you need to lease a backhoe, MHEC contracts have you covered.

Our **Furnishings & Accessories contract (C07)** has a wide assortment of innovative outdoor furniture, including the odd, but endearing offerings from Tenjam (that can be seen on our spotlight feature on page 12) that will entice any toddler. If you're looking for something more adventure-some, suppliers like **M.E. O'Brien** and **Premier Park & Play** on our **Athletics: Gym, Parks, and Recreation contract (B14)** can help.

For projects that require heavy machinery, like those pictured above, our members might consider one of the suppliers on our **Financing & Leasing Contract (F19)**. In addition to helping you get your project underway more quickly, these experts can help you prepare for pending budget cliffs, develop a sustainable plan for 1:1 ecology programs, and create a predictable budget—among other services.

For maintenance, repairs, and operations (MRO) services for your existing outdoor infrastructure, we offer our **Facilities contract (G19)**. It's also supported by our **Exterior Maintenance contract (G02)**, and **Motors, Pumps, Compressors, Controls, and HVAC (G03)**

Sometimes, a well-placed sign is the only enhancement that's required. For simple wayfinding signs, or snazzy digital marquees and vehicle wraps, there's something for everyone on our **Signage Contract (G24)**.

“OUTSIDE WORLD” SOLUTIONS

In our contract portfolio, MHEC offers a wide range of options for helping your organization work outside.

Whether you're planning a new landscaping project, updating campus signage, or want to replace worn furniture, MHEC has a contract covering that need. Not finding what you're looking for? Our team of strategic sourcing managers stands by, ready to help.

Listed in this Solutions section are a number of products and suppliers that 1st Monday editors thought deserved your attention.

(These spotlights do not constitute endorsements. As always, we encourage our readers to do their own research and ask questions of our suppliers. Visit the full contract landing pages online for full details on products and services offered by suppliers on contract.)

THE OUTDOOR CLASSROOM

The birds are singing, flowers blooming, and students are aching to go outside. If you're a biology teacher, you probably share that yearning, but at the end of the school year, you may be short on inspiration. That's where **Carolina Biological** comes in.

Based in North Carolina and represented on the MHEC contract for **Life Science Research (D05)**, Carolina Biological offers a series of Biological Topic Guides on their website. This comprehensive 16-part series explores essential topics, provides free digital resources, and offers suggestions for hands-on lab kits that will engage any high school biology class.

You can visit the guides here:

knowledge.carolina.com/biology-topics/

Recent topics include Plants, Evolution, Body Systems, and Cellular Respiration, among many others. Each includes a clear introduction, multiple subsections to explore different facets of a subject, and a wide variety of pre-prepared kits for you and your students to work with. The kits are ranked by difficulty (beginning, intermediate, and advanced) and all come with everything you need to conduct experiments and understand the results.

Also on each topic page are other supplies and test components to enhance the initial kits. These may include models, posters, actual biological materials (corn, seeds, flies), training videos, guide publications, and further free activities and resources.

Carolina Biological's kits come with everything a biology teacher needs to collect samples and conduct classroom experiments

For plant-based experiments, the kits include specially prepared seeds and soil samples

INNOVATIVE OUTDOOR FURNITURE

As the May weather taunts and teases us all, urging us to abandon our offices and meeting spaces for the outdoors, we sometimes deny ourselves that pleasure. We deceive ourselves, thinking it's not possible to work outdoors. Seating is uncomfortable, surfaces are uneven and unappealing. But this is not the case.

Between our **Furniture** contract (C07) and our **Athletics** contract (B14), MHEC has a range of suppliers with inviting options for outdoor furniture.

From **Segis'** sleek and modern tables and chairs to the round and otherworldly seats from **Tenjam**, there is no reason to settle for the mundane.

Though not strictly furniture, the outdoor musical instruments from **Freenotes Harmony Park** (and available from O'Brien and Sons on the B14 contract) are an accessible collaborative experience that provides an enriching sensory experience for people of all ages and abilities.

SIGNAGE SOLUTIONS

More than just presenting a name or indicating a direction, a good sign can add a sense of character and destination to a place. On the MHEC contract for **Signage (G24)**, we have a wide variety of suppliers serving New England. Each can take a client from napkin sketch to the grand unveiling. They can negotiate with contractors, do installations themselves, keep everything in code, and make

sure your designs can weather the winter. Below are a selection of innovative examples from three suppliers' portfolios. Top is a project done by **MetroSign** for Northeastern University. The middle image shows way finding solution by **SunshineSign** for Salem, Massachusetts. On the bottom is a vehicle wrap done by **GoGraphix** for the Clark Museum in Williamsburg and Mass MoCA in North Adams.

4 ways to connect to i-buy marketplace™

i-buy marketplace™ is ideal for smaller organizations that might not have a dedicated enterprise resource planning (ERP) system already. For those that do, we have other options to connect to our portfolio of contracts:

1. directly through MHEC

use the powerful features of **i-buy marketplace™** via a link on our website

2. managed team experience

utilizing the built-in admin features of **i-buy marketplace™**, organizations can assign roles to users and work collaboratively

3. standard ERP

i-buy marketplace™ can be easily connected to many popular systems used for procurement including: Tyler Munis, Tyler iVisions, Frontline Teams, Workday Skyward, and others.

4. add stores directly to your ERP

place any of the i-buy stores directly on your ERP - use MHEC contracts in an interface you're already familiar with - option works best with systems such as: Coupa, ESM, Jaggaer, UniMarket, and Oracle.

MAY CONTRACT ADDENDUM

B14 - Athletics: Gym & Field - Cardio & Strength, Games, Equipment

- Effective May 14, 2023, Life Fitness has updated their pricing.
